

# Speaker Disclosure slides for presentations

In compliance of the Conflict of Interest policies, the scientific direction requires speakers to disclose any relevant financial relationship they may have had within the last 12 months.

Each presenter must have a first slide pertaining to financial interests and make a statement at the beginning of their presentation.

This first slide must either:

- If there is nothing to disclose, the slide must clearly state that using the sample slide 1.
- If there is anything to disclose, disclose all financial interests using the sample disclosure slide 2.

A conflict of interest is any situation in which a speaker or immediate family members have interests, and those may cause a conflict with the current presentation. Conflicts of interest do not preclude the delivery of the talk, but should be explicitly declared. These may include financial interests (e.g. owning stocks of a related Company, having received honoraria, consultancy fees), research interests (research support by grants or otherwise), organizational interests and others (e.g. trips, travel, or gifts).

SLIDE 1 – If there is nothing to declare, please use this format.
